ACKNOWLEDGMENTS

First of all, I thank Allah, the almighty, for giving me the strength to carry on this project and for blessing me with many great people who have been my greatest support in both my personal and professional life. I would like to seize this opportunity to express my deepest regards and gratitude to my supervisor Dr. Mahasen Abu-Mansour for her dedication and sincere effort throughout the whole stages of bringing this project into light. Dr. Mahasen has been my role model who I have always admired. Her passion and dedication to phonology has a strong effect on her students including me. I was really lucky and blessed to be taught by such a phenomenal teacher who truly believes in the power of education in positively shaping and changing peoples’ lives to the best. I would also love to thank Dr. Rawia Kabrah for dedicating much of her time to help me with many of the problems I faced while conducting the study. Working with Optimality Theory constraints would be such a headache without her constant guidance and constructive feedback. As a teacher, Dr. Rawia has been a great inspiration to me. Dr. Kabrah's way of presenting and explaining OT was so amazing that I got the courage to work on the theory without being hesitant. Next, I would like to thank Dr. Shadya Ann Nightingale Cole, the head deputy of the English Department, for being such an amazing teacher, boss, and colleague. Many thanks for all of my MA teachers: Dr. Anas Abu-Mansour, Dr. Aziz Al-Moulodi, Dr. Hasan Ghazalah, Dr. Jamal Sheshah, and Dr. Sultan Al-Shareef, whose invaluable classes enriched my knowledge and expanded my perspectives in many ways.

My family, friends, colleagues, and students were also a huge part of my MA unforgettable journey. Thus, acknowledging them will be the least of what I can do to show my appreciation. I would first like to thank my family members my father, Mr. Yousif Ahyad, my mother, Mrs. Nadia Shater, my sisters, brothers, nephew, and nieces for their constant prayers and emotional support. I would especially like to express my deepest gratitude to my younger sister, Abby, for always being around me throughout all the ups and downs I have been through. I would also like to extend my sincere appreciation to my most faithful friend and sister, Ms. Suhad Sunbol, who has been always around to help me emotionally and academically. Ms. Sunbol was a great help during the process of interpreting the results. I was lucky enough to have more than one faithful and caring friend. Thus, I would like to take the chance to say thank
you to all my loving friends: Mrs. Afnan Farooqi, Mrs. Amani Makkawi, Mrs. Amna Irq Soos, Mrs. Arwa Al-Bannani, Ms Asma Mukhtar, Mrs. Fatima Baik (may her soul rest in peace), Ms Halah Al-Hitershi, Ms Hebah Salah, Ms Huda Sadis, Mrs. Layla Asrar, Mrs. Najlaa Al-Blemi, Mrs. Najwa Helmi, Ms Nawal Al-Zahrani, Mrs. Rana Basfar, Mrs. Rana Hadrawi, Mrs. Rehaf Basfer, Mrs. Samah Bugis, Mrs. Samah Al-Harthi, and Ms Shuaa Al-Jaser.
